Why We Are Different

- We are one of the few in the country that does “attorney-led” investigations. We have the necessary manpower and expertise to uncover schemes behind the disguised “usual” business transactions and gather evidence of fraud, forgery, conspiracy to injure, breach of fiduciary duties, diversion of assets and funds, corruption and bribery.
- We place heavy emphasis in digging deep and uncovering all relevant facts, information and documents, including those which may not seem obviously relevant to the client initially but later turn out to be crucial.
- With more than 25 years in practice, we leverage on our familiarity with the know-hows in various industries and a large team of lawyers that can be called upon.
- Great weight will be placed on choosing the best legal strategy that circumstances may allow, to have a dispute resolved as effectively and efficiently as possible.

Notable Clients

We act for several multinational, government-linked and public listed companies, as well as international corporations from Singapore, Indonesia, Hong Kong, China, Australia, India, the United Kingdom and the United States of America.
